

## Our Remuneration

We, Impartial act as intermediary between you, the consumer, and the product provider with whom we place your business.

### **The background**

Pursuant to provision 4.58A of the Central Bank of Ireland's September 2019 Addendum to the Consumer Protection Code, all intermediaries, must make available in their public offices, or on their website if they have one, a summary of the details of all arrangements for any fee, commission, other reward or remuneration provided to the intermediary which it has agreed with its product producers.

### **What is commission?**

For the purpose of this document, remuneration is the payment earned by the intermediary for work undertaken on behalf of both the provider and the consumer. The amount of remuneration is generally directly related to the value of the products sold.

We are remunerated by commission and other payments from product producers. When assessing products, we will consider the different approach taken by product providers in terms of them integrating sustainability risks into their product offering. This will form part of our analysis for choosing a product provider.

There are different types of remuneration/commission models:

**Single commission model:** where payment is made to the intermediary shortly after the sale is completed and is based on a percentage of the premium paid/amount invested/amount borrowed.

**Trail/Renewal commission model:** Further payments at intervals are paid throughout the life span of the product.

### **Indemnity commission**

Indemnity commission is the term used to describe a commission payment made before the commission is deemed to be 'earned'. Indemnity commission may be subject to a clawback (see below) if the consumer lapses or cancels the product before the commission is deemed to be earned.

Other forms of indemnity commission are advances of commission for future sales granted to intermediaries in order to assist with set up costs or business development.

### **Life Assurance/Investments/Pension products**

For Life Assurance products commission is divided into initial commission and renewal commission (related to premium), fund based or trail (relating to accumulated fund).

Trail commission, bullet commission, fund based, flat commission or renewal commission are all terms used for ongoing payments. Where an investment fund is being built up through an insurance-based investment product or a pension product, the increments may be based on a percentage of the value of the fund or the annual premium. For a single premium/lump sum product, the increment is generally based on the value of the fund.

Life Assurance products fall into either individual or group protection policies and Investment/Pension products would be either single or regular contribution policies. Examples of products include Life Protection, Regular Premium Life Assurance Investments, Single Premium (lump sum) Insurance-based Investments, and Single Premium Pensions.

### **Investments**

Investment firms, which fall within the scope of the European Communities (Markets in Financial Instruments) Regulations 2007 (the MiFID Regulations), offer both standard commission and commission models involving initial and trail commission. Increments may be based on a percentage of the investment management fees, or on the value of the fund.

### **Clawback**

Clawback is an obligation on the intermediary to repay unearned commission. Commission can be paid directly after a contract is concluded but is not deemed to be 'earned' until after a specified period of time. If the consumer cancels or withdraws from the financial product within the specified time, the intermediary must return commission to the product producer.

### **Fees**

Our As of 31 March 2020, The Central Bank of Ireland has requested that all financial advisers make available a summary of the details of commissions or fees that we can receive from providers. We are transparent in the fees charged and or commission earned please refer to our Statement of Suitability document[s].

Please note that these are the maximum commissions payable and we do not charge these rates to our clients.

Our standard fee for a comprehensive personal Financial Plan is €750 plus VAT. More complex cases will have a higher fee based on the scope of the work and a fixed price fee is always agreed in advance

This covers the cost of the FactFind process, Lifelong Cash Flow Analysis, and Scenario Planning Analysis, all produced with action points and report.

If from the agreed action points, you want us to implement a product for you, there may be an additional cost, in such cases this will be communicated to you in advance

### **Sustainability**

We are usually remunerated by commission from Product Producers and Insurers with whom we facilitate Investment and Insurance Based Investment transactions on your behalf.

This commission will not influence our decision to recommend a particular product. We consider how the Product Producers and Insurers have integrated sustainability risks into their investment product offerings prior to making our recommendations to our clients

### **Preferred Provider Rate**

### **Other Fees, Administrative Costs/ Non-Monetary Benefits**

The firm may also be in receipt of other fees, administrative costs, or non-monetary benefits such as:

- Attendance at product provider educational seminars
- Assistance with Advertising/Branding
